

## STARCO dual wheel system

- ▶ Full range for any application
- ▶ Strongest System in the market
- ▶ Less clamps needed
- ▶ Only e-coated dual wheels in the market
- ▶ Easy mounting and adjustment of the duals

## Productivity

### Duals to prevent soil compaction

- ▶ Better traction, less slippage
- ▶ Increased yields
- ▶ Less tillage required

## Productivity & Capacity

### Duals for row crop tractors

- ▶ Keep foot print
- ▶ Providing needed load capacity
- ▶ Improved yield output

## Stability

### Duals for mountains

- ▶ Extended vehicle capabilities
- ▶ Improved stability
- ▶ Traction and stability for steep slopes and wet conditions

## Efficiency

### Design your own duals using the AW system

- ▶ Use spare or redundant wheels
- ▶ Just one clamp - quick and easy fitment
- ▶ Only system allowing wider duals

## Traction

### Duals for harvester

- ▶ Designed to work in wet conditions
- ▶ Optimal ground contact
- ▶ Quick mounting of duals

### STARCO – a Kenda company

STARCO has been a pioneering force in the wheel and tyre industry for more than 55 years. Today, 550 STARCONians make up a great team bound by a passion to develop, manufacture and deliver clever wheel solutions. STARCO's specialty is low and high volume standard and bespoke complete wheels for a wide range of applications – from the smallest wheelbarrow or trailer, to large agricultural or industrial machines and implements.

With factories in the UK, Croatia and China, as well as eight sales and distribution locations across Europe, STARCO has a widespread distribution network. STARCO is a part of the Kenda Group that is one of the world's leading tyre and tube manufacturers with factories all over the world and 10,000 employees globally.
