

STARCO implement

Versatile tyres for all surface

The **STARCO SG Flotation** range has been designed specifically to give **excellent performance on soft ground**, with minimum ground bearing pressure.

STARCO SG Flotation tyres are an excellent investment and should be fitted to most agricultural implements as well as small loaders. The STARCO SG Flotation tyre is primarily intended for agricultural implement application for use in tipping and silage trailers, harrows and ploughs but can also be used advantageously on small tractors, combine and forage harvesters, small loaders etc.. The STARCO SG Flotation tyre from STARCO allows owners and operators of agricultural machinery the best maneuverability, stability and reliability from their equipment

- ▶ Superior tread for wide and even footprint
- ▶ Unique carcass construction for optimal use
- ▶ Low ground pressure helps prevent oil compaction
- ▶ Designed for high level of self-cleaning
- ▶ Good traction on soft soil and grass
- ▶ STARCO designed and engineered

Designed and developed to OEM standards, The **STARCO AW** range of **agricultural free rolling tyres** will give **excellent performance** in a wide range of applications.

The "standard" AW pattern has been optimized to give good self-cleaning properties and stone rejection, whilst the tread compound has been selected to provide a longer life on both soft and hard surfaces.

The STARCO AW range offers OEM standards of reliability and life span, combined with excellent value for money.

- ▶ Excellent performance
- ▶ For a wide range of applications
- ▶ Excellent reliability
- ▶ Long lifetime
- ▶ High load capacity at low tyre pressure
- ▶ STARCO designed and engineered

STARCO can supply a full range of flotation and AW tyres for all types of agricultural machinery.

Regardless of the type of machine you are fitting with STARCO tyres, STARCO can supply the wheels as well.

STARCO – a Kenda company

STARCO has been a pioneering force in the wheel and tyre industry for more than 55 years. Today, 550 STARCONians make up a great team bound by a passion to develop, manufacture and deliver clever wheel solutions. STARCO's specialty is low and high volume standard and bespoke complete wheels for a wide range of applications – from the smallest wheelbarrow or trailer, to large agricultural or industrial machines and implements.

With factories in the UK, Croatia and China, as well as eight sales and distribution locations across Europe, STARCO has a widespread distribution network. STARCO is a part of the Kenda Group that is one of the world's leading tyre and tube manufacturers with factories all over the world and 10,000 employees globally.
